Why do a whole qualification if you only need a skills set?

A skills set is a set of Units from the full qualification that may be offered to meet specific job requirements or as electives imported into other qualifications.

These may be taken from more than one qualification or Training Package, provided that we have those units on our Scope.

Practical Skills Demonstrations

Many of the units require practical application of skills.

Demonstration of practical skills can be through:

- demonstrations in classrooms
- workbased projects which require consultation with co-workers or stakeholders
- individual skills coaching and mentoring sessions, face to face or using Skype video contacts with your assessor
- video recordings of sessions in the workplace or in community settings
- recognition evidence (portfolio) verified by references and learner feedback

Discuss your options with your assessor before you commence training.
